

# KRZYSZTOF SNOPEK

## SUMMARY

I have worked as a road designer for the last 3 years, but as this line of work is extremely dependent on the global market and the availability of building materials, I decided to move on and find a job in programming. For the last half a year I have been learning React framework and how to become a front-end developer. I am looking for an opportunity to improve my skills at work.

- HTML
- CSS / Styled Components
- Tailwind.css
- Bootstrap
- Firebase
- Git

## OTHER INTERESTS

- Sport (gym & squash)
- Cooking (Asian cuisine)
- Movies (thrillers, action, mystery)

## Personal projects & Experience

**Resume** A responsive, one-page React app styled with Tailwind.css and serving as a resume and portfolio. The app was deployed with firebase and it allows users to get some information about me and shows other created by me online projects. To get a look at it, [click here](#).

**Stock App** A **React** based app that allows the user to browse through the stock values that are getting fetched from an api in real time. Styled with **bootstrap**, the app allows the user to buy and sell shares at their current prices with immediate update to the user's wallet. User can log in to his account – the option was introduced with the help of **firebase**.

**To-Do List** A to-do list app created by using **React**. User is able to create new list items, which after exceeding given amount will create new pages created with **react-paginate**, that you can freely navigate to. You have the ability to remove the items, which will be moved to the other section. All information is saved in local storage. The app was styled using **styled components**.

## Completed courses

**ReactJs** The modern React Bootcamp (Hooks, Context, Router) by *Colt Steele*

**HTML, CSS, JS** The Web Developer Bootcamp (HTML, CSS, JS and More!) by *Colt Steele*

## Experience

July 2019 – VogelBahn Sp. z o.o. sp. k., Katowice

June 2022 Road designer assistant

My duties included:

- Preparing infrastructure projects
- Working with clients to achieve their desired outcome
- Leading a designer team – biggest completed construction project – project of an over 5 km tramline in Sosnowiec

## EDUCATION

May 2019 Master of Science in Civil Engineering (The Silesian University of Technology)
